

***The Dispatch - March 2014***

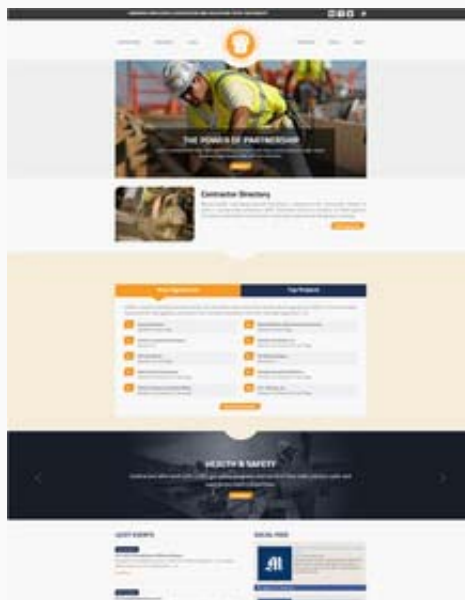

A Newsletter from LECET Southwest

**Dear Name,**

Welcome to the inaugural edition of *The Dispatch!* *The Dispatch* is an electronic newsletter from LECET Southwest, a labor-management partnership between the Laborers' International Union of North America (LIUNA) and their signatory contractors throughout California, Arizona and New Mexico.

Once per quarter, *The Dispatch* will bring you stories about the projects being built by LIUNA members and their contractors, updates on newly signatory contractors, important information about the construction industry, the Laborers' Union and more.

With the creation of this electronic newsletter, LECET Southwest hopes we will improve our communication efforts and make the information we provide more valuable and timely. To that end, we have also redesigned our website to make it easier to find the information you need. If you are looking for information on projects, contractors, the Laborers' Union, or a resource to help improve your company's bottom line, check us out -

**The  
LECET  
Business  
Advantage**

Do you want free, customized project leads delivered straight to your email in-box? If so, you may want to consider the LECET Business Advantage (LBA). The LBA can customize leads by:

1. Type of work
2. Location
3. Project Value

## 2005 West Pico

### ***Tower General Contractors Builds a New Home for Laborers' Local 300***

At the June 2008 membership meeting of Laborers' Local 300, a motion was made, seconded, and carried by the membership. That motion ratified Local 300's Executive Board recommendation to build a new, state-of-the-art union hall for the membership of the Local. More than five years later the project is nearly complete. [Read More](#)

### **California's Transportation Fiscal Cliff** by Will Kempton, Transportation CA

California is once again facing a funding crisis for transportation infrastructure. Over the past decades, our industry has championed efforts to provide a continuing source of money to support funding for California's transportation infrastructure. With gas tax revenues declining, and with the looming sunset of ... [Read More](#)
